

**TELESCOPING SUSPENSION FORK HAVING A QUICK RELEASE
WHEEL AXLE CLAMP**

ABSTRACT OF THE DISCLOSURE

A telescoping fork for the front wheel of a two wheel vehicle comprises a pair of outer tubes that each have a bottom end and a top end. An upper structural member and a lower structural member connect the outer tubes. Further, each outer tube tapers outwardly, both externally and internally, in a direction from the bottom end toward the lower structural member and from the top end toward the lower structural member. The structural members may attach to a top and bottom of a steering column.
